

Native Bovine Brain Calcineurin (CaN)-Active

Cat. No.: AP2F222

Product Type: Animal Proteins

Size: 100 U

Product Overview

BioVenic's Native Bovine Brain Calcineurin (CaN)-Active is a native protein derived from Bovine Brain.

Specifications

Type	Native Protein
Species	Bovine
Source	Brain
Biological Activity	≥2500 U/mg protein
Predicted Molecular Weight	77 kDa (dimer)
Physical State	Lyophilized
Formulation	0.5% EGTA, buffer salts and stabilizers.

Target Information

Calcineurin (CaN) is a calcium and calmodulin dependent serine/threonine protein phosphatase. It activates the T cells of the immune system and can be blocked by drugs.

Protein	Bovine Calcineurin (CaN)
Protein Synonym	Calcineurin; CaN
EC No.	3.1.3.16

Shipping and Storage

Store at -20°C. Avoid freeze and thaw cycles.

The product is for research use only. Not for commercial, prophylactic, diagnostic, or therapeutic applications. Please determine the purpose of the product before purchasing. For further information and inquiry, please contact us.
