

Native Bovine Fetal Bovine Serum Fetuin (Fetuin)

Cat. No.: AP2F53

Product Type: Animal Proteins

Size: 1 mg; 10 mg; 100 mg; 1 g

Product Overview

BioVenic's Native Bovine Fetal Bovine Serum Fetuin (Fetuin) is a native protein derived from Bovine Fetal Bovine Serum.

Specifications

Type	Native Protein
Species	Bovine
Source	Fetal Bovine Serum
Predicted Molecular Weight	64 kDa
Physical State	Lyophilized

Target Information

Fetuin is a glycoprotein produced mainly in the liver and found in the bloodstream. It plays various roles in the body. Fetuins are blood proteins that are made in the liver and secreted into the bloodstream. It has multiple functions as an inhibitor of insulin receptor tyrosine kinase, regulates bone remodelling and calcium metabolism, regulates vascular calcification, insulin resistance, protease activity control, keratinocyte migration and signalling of breast tumour cell proliferation.

Protein	Bovine Fetuin (Fetuin)
Protein Synonym	Fetuin; Fetuin from fetal bovine serum

Shipping and Storage

Store at 2-8°C. This product is shipped at ambient temperature. Avoid repeated freeze-thaw cycles.

User Note

If used for cell culture, please do pretreatment in advance to remove pyrogenic bacteria.

The product is for research use only. Not for commercial, prophylactic, diagnostic, or therapeutic applications. Please determine the purpose of the product before purchasing. For further information and inquiry, please contact us.
