

Rabbit Anti-Porcine Anti-Mullerian Hormone (AMH) Polyclonal Antibody

Cat. No.: VD1N399

Product Type: Animal-targeted Antibodies

Size: 100 µL; 200 µL; 1 mL

Product Overview

BioVenic rabbit polyclonal antibody is specific for porcine anti-mullerian hormone. It is affinity purified by protein A. It can be applied to WB, IHC, ICC and IP assays of porcine anti-mullerian hormone.

Specifications

Application	WB; IHC; ICC; IP
Clonality	Polyclonal
Classification	Primary Antibody
Clone	A11N48
Host	Rabbit
Target Species	Porcine
Species Reactivity	Porcine
Specificity	Porcine Anti-Mullerian Hormone
Isotype	IgG
Immunogen	Recombinant protein of porcine anti-mullerian hormone
Purification	Protein A Purified
Concentration	0.5 mg/mL
Conjugation	Unconjugated
Preservative and Stabilizer	0.05% Proclin 300
Buffer	0.01M Phosphate Buffered Saline, pH 7.4, with 50% Glycerol
Physical State	Liquid

Target Information

Porcine Anti-Müllerian Hormone (AMH) is a member of the TGF- β superfamily, produced by Sertoli cells in the testes and granulosa cells in the ovaries. It plays a key role in sexual differentiation by inhibiting the development of Müllerian ducts in males. In female

s, AMH regulates follicle development and serves as a marker of ovarian reserve. It also influences bone metabolism and immune regulation, contributing to reproductive and metabolic health.

Target	Porcine Anti-Mullerian Hormone
Target Synonym	MIF; MIH; MIS; Müllerian Inhibiting Factor; Müllerian Inhibiting Hormone; Müllerian Inhibiting Substance
Gene ID	397578
UniProt ID	P79295

Shipping and Storage

This product is shipped with wet ice packs. Store at -20°C on receipt (up to 2 years). Avoid repeated freezing and thawing as this may denature the antibody.

The product is for research use only. Not for commercial, prophylactic, diagnostic, or therapeutic applications. Please determine the purpose of the product before purchasing. For further information and inquiry, please contact us.
