

Rabbit Anti-Porcine Adiponectin (ADPN) Polyclonal Antibody

Cat. No.: VD2N35

Product Type: Animal-targeted Antibodies

Size: 100 µL; 200 µL; 1 mL

Product Overview

BioVenic rabbit polyclonal antibody is specific for porcine adiponectin. It is affinity purified by protein A. It can be applied to WB, IH C, ICC and IP assays of porcine adiponectin.

Specifications

Application	WB; IHC; ICC; IP
Clonality	Polyclonal
Classification	Primary Antibody
Clone	A13N13
Host	Rabbit
Target Species	Porcine
Species Reactivity	Porcine
Specificity	Porcine Adiponectin
Isotype	IgG
Immunogen	Recombinant protein of porcine adiponectin
Purification	Protein A Purified
Concentration	0.5 mg/mL
Conjugation	Unconjugated
Preservative and Stabilizer	0.02% Sodium Azide
Buffer	Phosphate Buffered Saline, pH 7.4, with 50% Glycerol
Physical State	Liquid

Target Information

Porcine adiponectin is a hormone produced by adipose tissue, involved in regulating glucose and lipid metabolism. It enhances insulin sensitivity and promotes fatty acid oxidation in tissues such as muscle and liver. Adiponectin also has anti-inflammatory effects,

modulating immune responses and reducing inflammation. Its levels are associated with metabolic health and energy homeostasis.

Target	Porcine Adiponectin
Target Synonym	GBP28; ApM1; AdipoQ; Acrp30; ACDC; APM1; C1Q and Collagen Domain Containin g; Adipocyte Complement-Related Protein of 30 KDa; Adipose Most Abundant Gene Transcript 1
Gene ID	397660
UniProt ID	Q6PP07

Shipping and Storage

This product is shipped with wet ice packs. Store at -20°C on receipt (up to 2 years). Avoid repeated freezing and thawing as this may denature the antibody.

The product is for research use only. Not for commercial, prophylactic, diagnostic, or therapeutic applications. Please determine the purpose of the product before purchasing. For further information and inquiry, please contact us.
